Process/Activity	Hazards Identified	Persons at Significant Risk	Existing Controls	Are existing controls adequate? Y/N	What additional controls are required?
Hygiene	Risk of Coronavirus transmission	Staff and children	Immediately before Boomer comes into school, he will be wiped down with damp towel to ensure that there is no transmission of coronavirus from his fur. He will also be wiped down when he leaves the school. Children will wash their hands thoroughly before and after handling him, to ensure there is no transmission. Antibacterial gel will available at all times in the dedicated space for Boomer. Boomer will only come into contact with one year group across half a term, so that there is no cross contamination between the year group bubbles.	Yes	Hand sanitiser will be available for additional protection.
Hygiene	Handling the animals	Staff and children	Establish routines and procedures to teach the children about good hygiene habits around animals such as washing hands and avoiding the dog's mouth area. After handling the dog, make sure all the children wash their hands and any areas licked. (Dog does not usually lick). Have antibacterial gel available at all times in the dedicated space for Boomer.	Yes	Boomer to be accompanied at all times when on the school premises.
